Dear Dr. Lederberg:

Michael Giannelli, Executive Director of the National Coalition to Protect Our Pets, has shared with me his October 1 and December 11, 1986 correspondence with you, and your November 24, 1986 letter to him.

My interest in this correspondence is three-fold: On principle, I am very concerned about the implications of pound seizure programs; I am Board Chairman of the National Coalition to Protect Our Pets; and we are both close neighbors on York Avenue.

I could think of nothing that would add to the comments of Dr. Giannelli, nor should it surprise you that I am in total agreement with his views. In case you missed it, however, I would like to share with you a recent editorial in the New York Times that, quite succinctly, echoes the views of both Michael and myself. Hopefully, leaders within the research community will increasingly concur with what the Times states so well.

Sincerely,

John F. Kullberg
